WORK EXPERIENCE

Programs Management Analytics & Technologies (PMAT)	<i>San Diego, CA (Hybrid)</i>
Information Systems Security Officer (ISSO)	Mar 2026 – Present
<i>Organizational Information Security Management</i>	
- Supported Cybersecurity Maturity Model Certification (CMMC) Level 2 organizational compliance efforts. - Developed organizational architecture diagrams documenting network relationships, boundaries, and data flows. - Evaluated organizational cybersecurity policies for alignment with NIST SP 800-17A and CMMC Level 2. - Collaborated with the Cyber Compliance Officer to support organizational governance activities.	
<i>Ship Self Defense System (SSDS) Program</i>	
- Assessed and monitored NIST RMF security controls across the Ship Self Defense System (SSDS). - Conducted 300+ security controls assessments across multiple review cycles to ensure DoD compliance. - Identified, documented, and coordinated remediation of 20+ critical deficiencies to maintain security posture. - Partnered with ISSM to support continuous monitoring, POA&M management, and ATO activities. - Drafted and maintained compliance for 20+ policies and procedures to align with NIST SP 800-53 standards.	
Software Engineer	May 2023 – Mar 2026
<i>Ship Self Defense System (SSDS) Program</i>	
- Maintained and enhanced code for the Navy's Ship Self Defense System (SSDS) program. - Collaborated within a development team to support comprehensive testing, debugging, and system integration. - Investigated, documented, and resolved 20+ complex software defects through analysis of trouble reports. - Integrated 30+ large-scale code merges across different baselines, improving system performance. - Participated in weekly Agile meetings to support sprint planning, progress tracking, and issue resolution.	

EDUCATION

Master of Science (MS), Information Systems – San Diego State University	(Expected) 2026
Bachelor of Science (BS), Computer Science – Western Governors University	2024
Bachelor of Science in Business Administration (BSBA), Information Systems – San Diego State University	2022

CERTIFICATIONS

Advanced Graduate Certificate in Data Science – San Diego State University	2025
Google Cloud Computing Foundations – Google Cloud	2025
CompTIA Security+ – CompTIA	2024
Linux Essentials Certificate – Linux Professional Institute	2024

PROJECTS

Cloud Computing & Security Personal Website <i>AWS, S3, Route 53, IAM, CloudTrail, KMS, HTML, CSS, JavaScript</i>	
- Designed, developed, and deployed a personal website using Amazon S3 with custom domain routing via Route 53. - Configured IAM users and roles with least privilege access and enforced MFA for enhanced account security. - Enabled AWS CloudTrail to log S3 access and user activity, storing encrypted logs in a separate S3 bucket. - Enabled S3 versioning for recovery and configured lifecycle policies to manage retention and reduce storage costs.	
Data Management System Appointment Scheduler <i>Java, JavaFX, MySQL, JDBC, Scene Builder</i>	
- Developed a JavaFX appointment scheduler with MySQL integration for managing customers and appointments. - Designed a user-friendly interface for efficient appointment scheduling and customer management. - Implemented timezone support for accurate cross region scheduling to prevent scheduling conflicts. - Created conflict detection logic to prevent overlapping appointments for the same customer or time slot.	

TECHNICAL SKILLS

Languages: Java, Python, R, C++, HTML, CSS, JavaScript, SQL, Bash
Cybersecurity: ATO, RMF, Governance, NIST SP 800-53, NIST SP 800-171A, CMMC Level 2, DoD STIGs
Libraries & Frameworks: Matplotlib, jQuery, JavaFX, Pandas, React
Tools & Technologies: Git/GitLab, VSCode IDE, MySQL Workbench, Jira, Docker, RStudio, Nessus, STIG Viewer
Infrastructure: Windows, Ubuntu, RHEL 8, macOS, Google Cloud, AWS
